

**February 12, 2010
Public service workers:
At the heart of your everyday life!**

This February 12, bookmarks will be distributed to the public all over Quebec.

By this bookmark distribution campaign, we want to show our pride in working for Quebec public services, testify to our commitment to do our best in serving the population, and raise people's awareness about the importance of public services in their lives.

In this mailing, you will find an instruction sheet to help you organize your local action and a quantity of bookmarks, based on the number of members you represent.

To make this event a success, we remind you that the bookmarks must be distributed outside the institution to adults who visit to obtain services. This action must not disrupt normal performance of work or prevent free access to the institution. We invite you to organize this distribution action in collaboration with the Common Front's other member unions present in your institution.

**Here's to a successful distribution!
We are at the ♥ of the services the public receives
We have every reason to be proud of it!**
